As to claim 4, Christensen discloses wherein the characteristic information delivery means is designed to deliver characteristic information (paragraph 32, 37, 40, 43, 54), which can be formed from the radio signal (paragraph 29-37).

As to claim 5, Christensen discloses wherein detection means are additionally provided (paragraphs 30-31), with which detection means a detection of location information is enabled (paragraph 22, 37, 38), wherein the location information can be used to determine the characteristic information (paragraph 22, 37, 38).
